

# Antennas and Satellite

## We installed our first aerial in 1970!

Considered by many to be expert in the installation of all types of antennas, from single dipoles and satellite dish work, to mobile phone, local radio studio links and broadcast antennas.

Whether a single aerial or combined aerial / satellite dish providing SKY+ signals to an individual property through to multi-occupancy communal systems, even integrating CCTV images via COFDM modulator units for viewing on the clients TV screen.

- Our experienced engineers are also qualified for working at height from ladders or MEWPS.
- Two year guarantee on all repairs and installations.
- Maintenance contracts available.
- Approved contractor with the “Buy with Confidence Scheme” (Trading Standards).
- Personal service - NO sub-contractors.
